

Twelve thousand people is a pretty fair little old crowd to put into any state's fair grounds; what?

WHEN it becomes necessary to stop admitting the people, our state fair looks like a sure enough success.

London, Oct. 14. (10:30 p. m.)—Fifty-five persons were killed and 114 injured in the Zeppelin raid over London last night.

Eighteen of the fifty-five persons killed and thirteen of the 114 wounded were military casualties, according to an announcement made later by the official press bureau.

The rest of the announcement follows:

"The press bureau of the war office announces that a fleet of British airships visited the eastern counties and a portion of the London area last night and dropped bombs."

"Anti-aircraft guns of the royal field artillery, attached to the central force, were in action and an anti-ship was seen to feed over on its side and drop to a lower altitude."

"The aeroplanes of the royal flying corps went up, but owing to atmospheric conditions only one aeroplane succeeded in locating an airship. This aeroplane however was unable to overhaul the airship before it was lost in the fog."

"Some houses were damaged and several trees were started but no serious damage was caused to military material. All fires were put out under control."

"The following military casualties in addition to the announced last night, have been reported: 11 killed and 63 wounded."

The home office announces the following casualties other than the military casualties reported above:

Killed—27 men, 9 women, 3 children, total, 49.

Injured—64 men, 20 women, 7 children, total, 91.

"Of these casualties, 32 killed and 95 injured were in London area, and these figures include those announced last night."

England's latest Zeppelin raid exacts in the number of casualties in any previous attack on the British capital. The last in which casualties were reported, that of September 8, comes second. Twenty deaths were caused on that occasion, while 80 persons were injured.

The casualties in the raid last night bring the total for all air raids on England up to 800, of which number 177 persons were killed and 663 injured.

Berlin, Oct. 14. (Via Wireless to San Diego)—An official report given out today by the German ministry regarding the Zeppelin raid on London, says that in addition to dropping bombs on the English capital, the water works at Woolwich, where there is a great arsenal, were heavily bombarded. Great fires are reported to have followed the explosion of the Zeppelin bombs.

The text of the admiral's statement follows:

"German airships during the night of October 13-14, attacked the city of London and nearly important establishments as well as the batteries of Woolwich. Several attacks were made, especially on the city of London. The docks of London, the war-

Great Financier in Public Address Urges Great National Economy Campaign as Only Means to Save Credit.

BRITISH BEAR WHOLE WAR FINANCE BURDEN

Squandering by the People, He Declares, Must End Abruptly or Financial Disaster will be Added to Calamities.

(By Evening Herald Leased Wire)

London, Oct. 14. (10:30 p. m.)—A great national campaign or private economy was urged by Sir George Grey in an address to London as the only possible means of preventing ultimate suspension of specie payments by Great Britain.

England is carrying the greatest financial burden of the world, he said. The war had some weak spots in our allies which we must repair. France has lost a large part of her income and therefore we must find money with which to buy the things we need. Russia has virtually no exports so we must help her. In addition we must provide for Belgium, Serbia and other allies.

"There is an excellent program for tonight, another record breaking speech is expected. One thousand dollars worth of brews will be dispensed. Johnny Mack will make an appearance in his illuminated carriage. Dredged Whistaker will ride on a bike from an elevated platform and drop through space into a tank of water. Granda and Fodera will be there with their sleek white tracks. There will be music by the Kilties and other bands, and a score of other attractions, including the wonders of the midway, to see.

"The audience ready laughs. If we multiply what we have done for our allies at least between 1000 dollars and the maximum to believe we have been exceeded in borrowing \$50,000,000 more of the American loans. This country needs to save nearly \$100,000,000 out of an income of \$1,000,000,000. The great mass of the people around save 10 per cent additional and the more wealthy 20 per cent.

"What is the alternative? Will it be possible for us to borrow \$500,000,000 to finance our debts? I think it impossible. If we go on spending more as we are now we shall see another record in American exchange as measured by a break in the dollar. Argentine, Australian and Indian exchanges.

"This involves several million dollars. The advantage would be obtained, however, is not of sufficient importance to offset the general situation of the French. Their assault on the currency of Tabor in increasing the cost of living, however, has not been materialized.

On the eastern front the Russians are now in full possession of the Caucasus and the momentous winter campaign has begun. The Red Army has advanced to the Black Sea and has taken the main front where it left off last July 26.

Russia failed to hold its own in the Dardanelles position on the western front, the Russians have turned upon the British and made a gain with a loss.

What is the alternative? Will it be possible to have our debts reduced to below our debts? I think it impossible. If we go on spending more as we are now we shall see another record in American exchange as measured by a break in the dollar.

"The Germans are continuing their attacks on the British lines. The fact of the same, although not diminished, is not of sufficient importance to offset the general situation of the French. Their assault on the currency of Tabor in increasing the cost of living, however, has not been materialized.
